The strength of these stocks caused a recovery of ½ to 1% in coal shares. Delaware and Hudson rising to 43, Morris and Essex to 74%, and Delaware, Lackawanna and Western to 47%. The greatest advance of the day was in Cleveland, Columbus, Cincinnati and Indian-coolis which sold up from 30 to 33. After

solis, which sold up from 30 to 33. After midday there was a reaction, and speculation was heavy and lower. The pressure to seli coal ores caused a decline from the highest if cures est point. The decline in coal shares was due to the action of some of the companies in selling all the coal they could without reference to the prices previously fixed. Secretary Sherman this afternoon had a conference with the syndicate. Representatives of the trunk line roads held a meeting to-day, and there are rumors affout of another disagreement. A number of prominent bankers and brokers and others, who are stockholders in the Michigan Central company, have sent a letter to Mr. Wm. H. Vanderbilt, requesting him to recewe their proxies and act for them at the approaching election of the Michigan Central company. COTTON. There was a fair demand for cotton yesterluy, but no quotable change in prices. A better disposition to sell was shown on the part of factors, hence the increase in business, the day's sales aggregating 1000 bales, of which exporters took 500, spinners 400 and speculators 100. Clean stains, 8½@9½c. The New York Bulletin, of Tuesday, in its cotton review of last week, has the following: "As might have been expected after the general break down of last week, the pres-sure has been partially removed from the market, and some recovery is to be noted along the entire line. At first the rise and threatened overflow of the Mississippi gave base for greater strength and started the mose timid 'shorts' into covering; then Liver-paol commenced to tone up somewhat and the larger operators were to be found among the buyers, and toward the close of the week an increased sale of actual cotton on the foreign outlet added another influence for stimulating values. The advance was not a steady or uniform one by any means, and breaks of 10@12 points were made at times when support was temporarily removed, but as a rule the selling interests have had the advantage. With the improve-ment, however, there has not appeared upon the market that generally cheerful and healthy tone which would be looked for on a return of positive confidence, and we find considerable under-current of suspicion regarding the change, with a tendency to attri-bute it largely to speculative manipulation solely. What with the amounts coming in on notices and the purchases from sample ex-porters will send a fair aggregate abroad, but this is looked upon as in a measure a mere change in the location of stock, as the foreign consumptive call has shown few signs of positive vitality, and Liverpool in showing a bet-ter tone is believed to have rather responded to the position of the market here, than to have developed any natural strengthening teatures. The rise of the water in the southwest, it is further claimed, did not amount to more than enough to start the usual bugbear, and, as a rule, the crop-advices at hand have a favorable tone, while above all, still looms the full accumu-lation of supplies seeking sale. The source and manner of a large portion of the de-mand have also tended to establish a belief that a great deal of 'show' bidding and buying has been going on for the purpose of fix-ing a line for new short sales, and certain foreign houses who became a little frightened on near-by options and commenced to cover, were subjected to a slight twist." V. B. WADDELL,

Attorney-at-Law, General Land Agent, Altorney-ar-Law, (ceneral Land Agent,

And Proprieter of the Abstract of Land Titles in Tunica county, Mississippi. Look to your land titles. I have now complete, a perfect Abstract of Titles of all lands in Tunica county, Miss., as it was before portions of the same were taken for Tate and Quitman countles. This Abstract shows that there are very few perfect titles in Tunica county, Many of them are utterly defective, and there are scarcely any that are not clouded by tax-titles. In some instances I find that valuable plantations, about the titles of which the holiers have entertained no doubt, are held by titles that would avail nothing before a court, either in prosecuting or defending a suit in ejectment. The defects in these titles may generally be cured if they are ascertained at once and the proper remedy applied. I will funish abstracts on short notice, charging one dellar for each conveyance noted on the abstract. Payable or ceitiers. for each conveyance noted on the abstract. Payable on delivery. V. B. WADDELL, Austin, Miss.
